What we do

Our world-class EHS consulting and sustainability services enable companies to assess and manage risks to protect employees, preserve environment, be socially and globally responsible. We are committed to growing our business through a technically savvy, morally and ethically based staff that understands the importance of delivering quality regardless of how big or small the project is.

CONSULTATION SERVICES

- ISO 9001 QMS
- ISO 14001 EMS
- ISO 45001 SMS
- ISO 22000 FOOD SAFETY
- ISO 22301 BCM
- Health and Safety Audits

Project Development, Design & Implementation / Comprehensive HSE Management Contract

We take care of project development and management activities of various facilities or Business (big or small) and take care of all aspects of HSE management services including initial surveys, setting standards, monitoring compliance, advising customers with various risk mitigation aspects and we outsource HSE services to professional companies and take care of payables of contractors to alleviate management burden on our clients. We integrate various components of HSE in property management to provide our customers with a safe living / working environment.

Environmental Audits

We offer environmental audit services to identify various environmental risks associated with locations, processes or activities to advise clients with required remedial / mitigation measures. Such audit services are extended to all kinds of businesses including construction companies, property developers, industrial facilities, residential communities, schools, hospitals, hotels, effluent treatment plants etc.

Quality Compliance Assessment / Quality Audits

We carry out site specific Quality Audits /surveys to explore various existing HSE issues. We also highlight any potential problems which may arise due to existing conducive conditions which might support / pose risk on a later stage. We report risk associated with such existing or potential HSE issues to property, health, products and environment. Furthermore we provide various preventive and curative aspects including risk mitigation advices, recommendations to improve / streamline HSE compliance as per statutory requirements.

Water Shed Management

We offer comprehensive packages for management of ponds, lakes and other natural or artificial water bodies. Our expertise ranges from baseline surveys to long term maintenance contracts, setting up aerators, pest management, algae control, odor control, fish stocking, water clarity improvement, water quality analysis and all associated services.

Snag Inspection

We offer service of professionals in pre-handover/ pre- purchase snagging inspection for all kind of properties. Our team of expert engineers are capable of picking up all major and minor construction and utility defects to furnish a detailed photographic snag report to get the defects rectified and to obtain better value for their property.

Efficacy Testing and Product Promotion

We support chemical and environmental product manufacturers & dealers with product efficacy testing under local / regional environmental conditions and also support them with product promotion based on the quality conditions and demand in the local/ regional market. We as independent consultants only promote products of confirmed quality standards so that professional HSE companies or associated businesses can benefit from such products while taking care of property and health of their clients.

Investigation on Fungus / Mould

We carryout pre-treatment investigative inspections to identify areas with visible mould / fungus growth / visible bio-contaminants and potential risk of contamination to provide the client with preventive recommendations in addition to the curative treatments. The disinfection treatment we offer are target specific and are based on outcome of pre-treatment inspections.

Investigative Studies & Expert Witness

We carry out investigative studies on alleged contamination related with pest problems, pesticide application, fumigation failures etc. Our team of professionals carryout detailed investigative studies on specimens, conducive conditions, product flow, pesticide residue analysis and various methodologies as appropriate to provide independent investigative report. We also provide expert witness services on pest infestation related legal matters to attorneys, insurance companies, food manufacturers, etc. wherein expert professional opinions based on bio-scientific facts and findings are submitted in detail.
